

BRUIN/BRUIP Ball Rollers - Insert Type

Precautions for Use

Insert type ball roller. Do not press fit.

Use a clearance fit when fitting with the attachment hole. If a tight fit is used, the product may be damaged or the ball may malfunction.

Part number specification

BRUIN-15-N

Product Code D Main Ball : "N" or "P"

- Insert type ball rollers for upward facing applications.
- Because the body section is inserted, the height can be reduced.
- Use an adhesive to secure these rollers.
- Products made of polyacetal and PEEK are available as standard.
- **BRUIP-P** is intended for applications that require cleaning, heat resistance, or chemical resistance, such as FPD production equipment and semiconductor devices.
- These ball rollers have drain holes and are intended for food production lines and other applications that require cleaning.
- These ball rollers can be used in downward and sideward facing applications.

Application

FPD production equipment, semiconductor devices, food production lines, and packaging lines

Material/Finish

	BRUIN-N	BRUIP-P
Main Body	Polyacetal/White	PEEK/Light brown
Main Ball	Polyacetal/White	PEEK/Light brown
Sub-Ball	SUS440C (Hardness 55HRC or higher)	SUS440C (Hardness 55HRC or higher)

BRUIN-N Main Body and Main Ball: Polyacetal

Unit : mm

Part Number	D	D1	L	L1	s	Db	d	Withstand Load (N)	Mass (g)
