

Service description

- After bonding the lever and knob female screw products with screws with anaerobic adhesive agent, fix them with pins.

- Thread length after combination varies depending on screws. Refer to the following table.

		SCS	SCSS	SADS-LC	SADS-LC	SADS-RF	SADS-SD
Screw Part Number		SAD-FT	SADS-FT				
Thread Length	<p>Thread Length = Entire Screw Length - Lf</p>						

Applicable Products

- Products of the lever , knob and screw categories are the target. Available / Add'l charge is displayed at the end of each product page for the target product.
- Products with screw diameter of M5 or above are the target.
- Knobs with 4 mm or above s are the target.
- Make the lever and knob thread diameters and screw thread diameter consistent.
