

SWS-HTF Seal Washers - PFA Coating

Chemical-proof **SUS** Stainless steel

- Sealing washers with a built-in rubber seal.
- Sealing washers prevent the leakage of gas and liquid from the bearing surface of the screw head.
- The washer body is coated with PFA (Perfluoroalkoxy Alkane). The rubber seal is made of fluororubber, which has excellent chemical resistance.
- Chemical Resistance of P Coating
- Application

FPD production equipment / Semiconductor fabrication wet processes / Printed circuit board etching devices / Metallic surface treatment equipment and facilities / Cleaning equipment / Chemical plants
