

SNZCXS-ALK Hexalobular Socket Extra Low Profile Miniature Screw / Nylon Patch

SUS Stainless steel Protrusion Vibration resistant treatment Miniature Size

*1: For dimension L of under 4 mm, nylon adhesion is on one side.

Material/Finish

SNZCXS-ALK	
Main Body	SUSXM7 (Equivalent to SUS304)
Nylon Adhesion	Nylon 11

Part Number Specification

SNZCXS-M2-3-ALK

- M1.4-M2.5. Miniature screw with nylon adhesion for precision instruments.
- The friction of the nylon adhered to the thread suppresses the return rotation of the thread, preventing the screw from falling out even if the tightening force decreases.
- Flat head machine screw type with low head height. For space-saving of equipment/devices and applications with limited overhead space.
- Screw heads are unlikely to be damaged due to tightening, allowing safe and secure tightening to be performed.
- Install and remove with **SKX** Dedicated Wrench or **SKXB** Dedicated Bit and **SRD** Dedicated Magnetic Screwdriver together.

Part Number	Applicable Wrench	Applicable Bit
SNZCXS-M1.4-ALK	-	SKXB-3
SNZCXS-M1.6-ALK	SKX-4	SKXB-4
SNZCXS-M2-ALK	SKX-5	SKXB-5
SNZCXS-M2.5-ALK	SKX-6	SKXB-6

- Use the **SKX-N** hexalobular wrench for extremely limited access spaces for mounting and removing in tight spaces.
- We manufacture products with special specifications such as ventilation holes, cleanroom washing and special packaging.
- Application

Reducing the size of equipment and devices / Return and fall prevention of screws
Compact precision equipment

Unit : mm
